

Subject: Art &
Conservation

CREATE A CONSERVATION ZINE!

DESCRIPTION

Students make their own hand-crafted mini-magazines ("zines") meant to educate their readers about the human impact on raptors. Using the provided list, students will choose a specific issue and will create a compelling message using the creative format of their zine.

MATERIALS NEEDED

- Printer paper
- Drawing supplies
- Scissors

MATERIALS SUPPLIED

- Slides with instructions
- Rough draft worksheet

GOAL

The goal of this activity is to increase students' knowledge of human impacts on wildlife, using raptors as an example.

Students should come away with an understanding of some ways that humans negatively impact raptor populations. Most importantly, they will learn what we humans can do to help.

INSTRUCTIONS

The lesson format & instructions for this lesson are all included on the slides provided. Review these prior to presenting the activity to your students.
