Zine Rough Draft

Take some time to start putting your ideas for your Zine on paper. Remember, each page is very small so you won't have much room to write/draw on each page. Use this space to write out your longer ideas and whittle them down into zine-length stories!

Possible Topics:

- Nests/nestlings falling
- Poisons in the yard/home
- Window Strikes
- Hit by vehicle
- Domestic cats

Each section here is a page of your zine

1. Title of your Zine:

2. Raptor species & details about them:

3. Introduce your issue, have your raptor be impacted by the issue.

4. What happens just after the incident?

5. Introduce the solution!

6. Show the same scene from #3, this time with no negative interaction.

7. This time what happens right after the incident?

8. Back cover of your zine & extra notes
