

COMPARISON VENN DIAGRAM

HUMANS

BIRDS

WINGS & ARMS

Name:

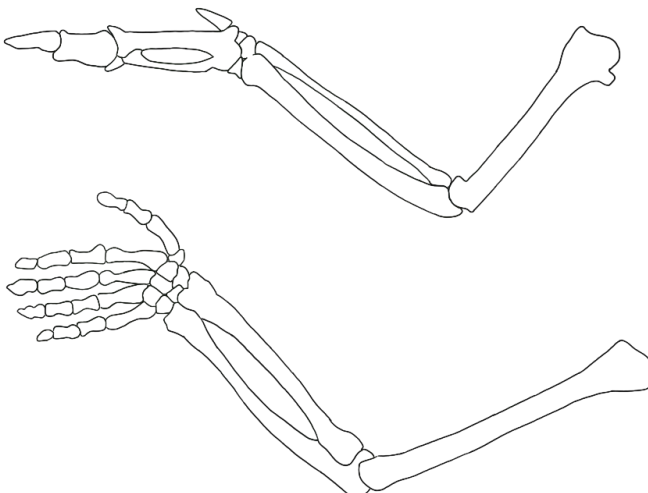

Date:

FUNCTION

What do birds use wings for? What do humans use arms for?

STRUCTURE

Match the words & bones by coloring them with the same color.
Then, label where the shoulder, elbow, wrist and 1st digit are.

- Phalanges (finger bones)
- Carpals & Metacarpals (hand bones)
- Ulna & Radius (forearm bones)
- Humerus (arm bone)

COMPARISON CHART

YOU

Individual _____

Wing-span		
Height		
Weight		

HUMAN

Type of Animal

BIRD

Bones		
Lungs		
Strength		

So what do you think...if you had wings could you fly??

NAME:

DATE:

IMAGINE FLYING

IF YOU WERE A BIRD...

Where would you go? How would the air feel on your skin? What would you see, hear, smell? Take some time to close your eyes and imagine. Write and/or draw your thoughts below
